Dear M. Weisberg,

The house of cards of Warren commiss. which was promised to Fall by Sen. Schweiker is still standing. Same mafia which was holding the pistol at the back of the commission. held it on Schweiker's back. I mentioned several times to him Whitewash 4 & Postmortem. without ever getting a word on these books with official documents. How were the sales of your last book and reactions; it looks our "free" press ignored it. I am against stone wall in my SPJ (gestapo) case and the Tom Kipp 75 war. The late

Elazar (chief of staff) mentioned in his memoires that two letters and telegrams with warnings were withheld from him. So it looks the war was organised be Dayan, Sadat & Kissinger. Now I made application for disclosure of my 1940-45 (FBI) files which could show the gestapo spy case. Looks they (FBI) waiting for my natural old age death saying they are very busy (with inside squabbles and illegal burglaries). Now I see the difficulties you have had to overcome getting disclosure of papers.

Heil Stalin
& Hitler and
U.S. Liberty!

Very truly yours
V. Khotimov

P.S. would appreciate few words from you
